REPORT TO THE LEGISLATURE

USE OF MOTOR VEHICLE FUEL ACCOUNT (BOATING) AND THE HARBORS AND WATERCRAFT REVOLVING FUND

CONTENTS

SUMMARY

- APPENDIX A Allocation of Funds from the Harbors and Watercraft Revolving Fund
- APPENDIX B Operating Costs of Districts with Boating Facilities
- APPENDIX C Park Units with Boating-Related Activities
- APPENDIX D Summary of Boating Recreation Services
- APPENDIX E Boating Equipment, Facilities and Services by Individual Park Unit

**REPORT TO THE LEGISLATURE
USE OF MOTOR VEHICLE FUEL ACCOUNT (BOATING) AND
THE HARBORS AND WATERCRAFT REVOLVING FUND**

2014-15 FISCAL YEAR

SUMMARY

A portion of the California Department of Parks and Recreation (Department) annual baseline operations budget is comprised of motor vehicle fuel tax funds paid by recreational boaters. These funds are used by the Department to help fund operations at state park units that provide boating related services to the public. The Department is required to report annually to the Legislature on the expenditure of the funds from this transfer per Harbors and Navigation Code Section 85.2(b):

“(b) (1) The money in the fund is also available, upon appropriation by the Legislature, for the operation and maintenance of units of the state park system that have boating-related activities. Funds appropriated may also be used for boating safety and enforcement programs.

(2) The Department of Parks and Recreation shall submit to the Legislature, on or before January 1 of each year, a report describing the allocation and expenditure of funds made available to the Department of Parks and Recreation from the Harbors and Watercraft Revolving Fund and from the Motor Vehicle Fuel Account in the Transportation Tax Fund attributable to taxes imposed on the distribution of motor vehicle fuel used or usable in propelling vessels during the previous fiscal year . . .”

In Fiscal Year 2014-15, the Department operated 22 districts containing a total of 279 park units. Of those park units, eight are state vehicle recreation areas (SVRA). The remaining 271 park units are non-SVRA. The non-SVRA park unit classifications within this report include state beaches (SB), state historic parks (SHP), state marine parks (SMP), state natural reserves (SNR), state parks (SP), and state recreation areas (SRA). These park units provide a variety of recreational opportunities, natural and cultural resource experiences, and education and interpretive activities. Many of the park units feature water as the main attraction where boating and boating-related activities take place. These park units include lakes, reservoirs, waterways and coastline. Some of the Department's most heavily-visited and heavily-staffed units are those offering boating activities.

Over one third of all State Park System units provide boating-related equipment, facilities and services. The Department is responsible for the largest number of recreational boating facilities and opportunities in California. It manages the largest staff of law enforcement and other personnel responsible for the health and safety of boaters and other individuals in and near the waters of California. Units within the State Park System offer many types of boating facilities, including docks, launch ramps, parking areas, mooring facilities, underwater parks, water ski areas, boat-in campgrounds, floating restrooms, buoys to mark various water hazards and set speed limits, rental

facilities, and supplies. In addition, the Department provides aquatic safety programs, boat patrol, law enforcement, search-and-rescue activities, and aquatic hazard mitigation.

In Fiscal Year 2014-15, the Department received revenue transfers from the Motor Vehicle Fuel Tax Account in the amount of \$26,649,000 into the State Parks and Recreation Fund and \$24,028,000 into the Harbors and Watercraft Revolving Fund. The revenue transfer to the State Parks and Recreation Fund is requested each year through the Budget Bill, and this funding is used to ensure the fund's solvency from year to year. In accordance with Revenue and Taxation Code § 8352.4, the revenue transfer to the Harbors and Watercraft Revolving Fund is calculated by the Department of Motor Vehicles annually, based upon a report of registered boats, and represents the boating-related proportion of tax revenue collected by the Motor Vehicle Fuel Tax Account. Each transfer is noted as contributing to the overall fund balance in the respective fund condition statement in the Governor's Budget.

In Fiscal Year 2014-15, the Department received a total appropriation of \$24,840,705 from the Harbors and Watercraft Revolving Fund to support boating-related operations across the State Parks System. The Department supplemented \$2.24 million from the State Parks and Recreation Fund and General Fund to support boating related needs.

Appendix A contains a breakdown of the allocation of funds from the Harbors and Watercraft Revolving Fund. Appendix B contains operating costs for boating related activities throughout the Department. Appendix C lists 102 park units that provide, or are impacted by, boating recreation. Appendix D is a summary of boating recreation services provided by the Department. Appendix E contains a narrative description for each of the 102 State Park System units providing boating related equipment, facilities, and services.

Boats on Lake Tahoe and kayak on shore near the pier

APPENDIX D

SUMMARY OF BOATING RECREATION SERVICES

Fiscal Year 2014-15

Boating Safety & Law Enforcement

Patrol/Rescue Boats: Operation (patrol), repair, and maintenance.

Search and Rescue: Personnel and equipment for both shore-based and vessel-based emergency services.

Buoys: Installation and maintenance of all buoys, including swim beach and mooring buoys.

Wind Warning Lights: Installation and maintenance.

Channel Maintenance: Dredging, weed control, and debris removal.

Boater Safety Education/Interpretation: Personnel and materials (signs and panels).

Law Enforcement: Visitor Services, including patrol, boating safety, arrests, citations, court time, and initial public contacts relating to law enforcement issues.

Operation & Maintenance of Land Based Facilities

Ramps/Boat Launch: Installation, materials, and upkeep.

Docks - Courtesy: Installation, materials and upkeep.

Piers: Installation, materials, and upkeep.

Slips: Installation, materials, and upkeep.

Moorings: Installation, materials, and upkeep.

Parking: Installation, materials, and upkeep (including lighting and landscaping).

Restrooms: Cleaning supplies, fixture replacement costs, and building repairs.

Chemical Toilets: *Rentals* - rental agreement costs for installation and maintenance, supplies, and upkeep. *Park-owned* - Materials, supplies, maintenance, and repairs.

Boat-In Camps: Maintenance, repairs, upkeep, and vegetation management.

Pump-Out Facilities/Marine: Materials and upkeep.

Picnic Sites (Boating-Related): Clean-up, fire pits, BBQs, table repair/replacement, and upkeep (including lighting and landscaping).

Refuse Collection (Boating-Related): Cost of receptacles, contract expense, materials, and general upkeep.

Operation & Maintenance of Water Based Facilities

Work Boat/Barge: Purchase, replacement, maintenance, repairs, and personnel.

Floating Campsites: Installation, materials, and upkeep.

Floating Restrooms: Installation, materials, and upkeep.

APPENDIX E

BOATING EQUIPMENT, FACILITIES AND SERVICES BY INDIVIDUAL PARK UNIT

Fiscal Year 2014-15

Northern Division

Bay Area District

Angel Island SP

This unit provides a beach boat landing area, one boarding float, 47 wet boat slips, three gangways, one pier, and water trails. Support equipment and facilities include 35 BBQs, 15 interpretive display/panels, five acres of landscaping, lighting, 27 overnight moorings with a capacity of 108 boats, 115 picnic areas (including 100 boat-in), 100 picnic tables, refuse collection and containers, 12 restroom buildings (totaling 34 flushable toilets), signage, four special event areas, one landing craft, one maintenance boat, two patrol boats, two visitor centers, one group campground, and 11 primitive campsites. This unit is partially ADA accessible. In addition, law enforcement is conducted by boat, foot and vehicle.

Candlestick Point SRA

This unit provides a beach boat launch area and two piers. Support equipment and facilities include eight BBQs, six fire rings, one fish cleaning station, four interpretive display/panels, one acre of landscaping, lighting, 236 paved vehicle parking spaces, 20 picnic areas, 67 picnic tables, refuse collection and containers, nine restroom buildings (totaling 28 flushable toilets), one chemical toilet, one vault toilet, two shower stalls, signage, and one swim area. This unit is partially ADA accessible.

China Camp SP

This unit provides two launch ramps for non-motorized boats, one beach boat launch area, one landing area, one dock, and one gangway. Support equipment and facilities include concessionaire-provided food and beverage, 12 paved and 50 unpaved vehicle parking spaces, two picnic areas, 14 picnic tables, refuse collection and containers, six restroom buildings (totaling six flushable toilets), two shower stalls, one swim area, one patrol boat, and one visitor center. This unit is partially ADA accessible. In addition, there is law enforcement conducted on foot and by vehicle, along with search-and-rescue activities.

Tomales Bay SP

This unit provides a beach launch and landing area for non-motorized boats. Support equipment and facilities include 38 BBQs, 16 interpretive display/panels, 142 paved vehicle parking spaces, two picnic areas, 36 picnic tables, refuse collection and containers, two restroom buildings (totaling eight flushable toilets), four pit toilets, two shower stalls, one special event area, one swim area, one maintenance vessel, two personal watercraft, and one visitor center. This unit is partially ADA accessible. In addition, law enforcement is conducted on foot and by vehicle.

Central Valley District

Bethany Reservoir SRA

This unit provides a one-lane launch ramp for motorized boats, along with one boarding float. Support equipment and facilities include five BBQs, 24 buoys, two interpretive display/panels, 140 paved vehicle parking spaces, six picnic areas, six picnic tables, refuse collection and containers, one vault toilet, and 30 signs. This unit is partially Americans with Disability Act (ADA) accessible. In addition, there are aquatic safety education/interpretation programs, law enforcement conducted on foot and by vehicle, and aquatic hazard mitigation.

Caswell Memorial SP

This unit provides a primitive launch area for non-motorized boats. Support equipment and facilities include 92 BBQs, 65 fire rings, five interpretive display/panels, five acres of landscaping, 200 paved vehicle parking spaces, three picnic areas, 115 picnic tables, refuse collection and containers, five restroom buildings (totaling 22 flushable toilets), 10 shower stalls, 110 signs, two swim areas, one patrol boat, one campground with 64 family campsites, and one group campsite. This unit is partially ADA accessible. In addition, there are aquatic safety education/interpretation programs, law enforcement conducted on foot and by vehicle, and aquatic hazard mitigation.

George J. Hatfield SRA

This unit provides a primitive launch and landing area for non-motorized boats. Support equipment and facilities include 19 BBQs, four acres of landscaping, 118 paved vehicle parking spaces, 26 picnic tables, refuse collection and containers, two restroom buildings (totaling eight flushable toilets), 20 signs, one campground with 15 family campsites, and one group campsite. In addition, law enforcement is conducted on foot and by vehicle.

Great Valley Grasslands SP

This unit provides a one-lane launch ramp and primitive/beach launch for non-motorized boats. Support equipment and facilities include 18 paved vehicle/trailer parking spaces, refuse collection and containers, two vault toilets, and signage. This unit is partially ADA accessible. In addition, law enforcement is conducted by foot, vehicle, and there are search-and-rescue activities.

McConnell SRA

This unit provides a primitive launch and landing area for non-motorized boats. Support equipment and facilities include 21 BBQs, 25 fire rings, two interpretive display/panels, four acres of landscaping, lighting, 58 paved and 50 unpaved vehicle parking spaces, one picnic area, 55 picnic tables, refuse collection and containers, two restroom buildings (totaling 16 flushable toilets), 8 shower stalls, 25 signs, one special event area, one swim area, one campground with 21 family campsites, two group campsites, and one Recreational Vehicle (RV) site with hookup. This unit is partially ADA accessible. In addition, there are aquatic safety education/interpretation programs, and law enforcement is conducted on foot and by vehicle.

Millerton Lake SRA

This unit provides six launch ramps for motorized boats, one launch ramp for non-motorized boats, one landing area, six boarding floats, docks, gangways, one water ski area, and concessionaire-provided boat rentals and 330 wet boat slips. Support equipment and facilities include 9,000 feet of anchor cable, 300 BBQs, 150 fire rings, 100 buoys, channel maintenance, concessionaire-provided marina/rentals/supplies, one dump station/pump-out facility, 20 interpretive display/panels, 10 acres of landscaping, lighting, 1,500 paved and 125 unpaved vehicle/trailer parking spaces, 16 picnic areas, 211 picnic tables, refuse collection and containers, 25 restroom buildings (totaling 63 flushable toilets), 15 chemical toilets, three floating restrooms, one pit toilet, nine vault toilets, 19 shower stalls, 250 signs, two special event areas, one swim area, one maintenance boat, four patrol boats, one personal watercraft with rescue sled, one resource boat, one educational barge, one sewage pump-out boat, six campgrounds (totaling 148 family campsites), one boat-in campground with six sites, two group campsites, 65 primitive campsites, and 27 RV sites with hookups. This unit is partially ADA accessible. In addition, there are aquatic safety education/interpretation programs, boat patrol, law enforcement conducted by boat, foot and vehicle, search-and-rescue activities, and aquatic hazard mitigation.

San Luis Reservoir SRA

This unit provides five launch ramps for motorized boats, three landing areas, five boarding floats, and two water ski areas. Support equipment and facilities include 2,650 feet of anchor cable, 138 anchors, 204 BBQs, 205 fire rings, 134 buoys, two dump station/pump-out facilities, two fish cleaning stations, 28 interpretive display/panels, 20 acres of landscaping, 1,803 paved vehicle and 198 paved vehicle/trailer parking spaces, 518 unpaved vehicle and 25 unpaved vehicle/trailer parking spaces, seven picnic areas, 478 picnic tables, refuse collection and containers, 12 restroom buildings (totaling 56 flushable toilets), 32 chemical toilets, two pit toilets, six vault toilets, 10 shower stalls, 212 signs, six special event areas, three swim areas, wind warning lights, one maintenance barge, five patrol boats, one pontoon boat, one personal watercraft, one resource boat, one educational barge, two campgrounds (totaling 131 family campsites), two group campgrounds, two primitive campgrounds (totaling 60 sites), and 52 RV sites with hookups. This unit is partially ADA accessible. In addition, there are aquatic safety education/interpretation programs, boat patrol, law enforcement conducted by boat, foot and vehicle, search-and-rescue activities, and aquatic hazard mitigation.

Turlock Lake SRA

This unit provides two launch ramps for motorized boats, one primitive/beach boat launch area, one boarding float, and one water ski area. Support equipment and facilities include 32 BBQs, 63 fire rings, 14 buoys, eight interpretive display/panels, 20 acres of landscaping, 190 paved vehicle and 25 paved vehicle/trailer parking spaces, 70 unpaved vehicle and 70 unpaved vehicle/trailer parking spaces, three picnic areas, 97 picnic tables, refuse collection and containers, six restroom buildings (totaling flushable 24 toilets), one vault toilet, four shower stalls, 129 signs, one swim area, and one campground with 63 family campsites. This unit is partially ADA accessible. In addition, there are aquatic safety education/interpretation programs and aquatic hazard mitigation.

Gold Fields District

Auburn SRA

This unit provides a two-lane launch ramp for motorized boats, one boarding float, two docks, and one water ski area. Support equipment and facilities include 18 fire rings, eight buoys, concessionaire-provided marina with 51 slips, one interpretive display/panel, lighting, 20 paved vehicle and 25 paved vehicle/trailer parking spaces, three unpaved vehicle and three unpaved vehicle/trailer parking spaces, refuse containers, four floating restrooms, two vault toilets, signage, one swim area, one maintenance boat, one maintenance barge, one patrol boat, and one boat-in campground (totaling 16 campsites). In addition, there is boat patrol, and law enforcement conducted by boat.

Brannan Island SRA

This unit provides a 10-lane launch ramp for motorized boats, one launch ramp for non-motorized boats, one primitive/beach launch area for non-motorized boats, five boarding floats, one pier, and one water ski area. Support equipment and facilities include anchors and anchor cable to designate swim area, 37 BBQs, 156 fire rings, two buoys, two dump station/pump-out facilities, two interpretive display/panels, 336 acres of landscaping, lighting, 317 paved vehicle and 177 paved vehicle/trailer parking spaces, 30 unpaved vehicle parking spaces, three picnic areas (including one boat-in), 155 picnic tables, refuse collection and containers, eight restroom buildings (totaling 40 flushable toilets), two vault toilets, 28 shower stalls, signage, one swim area, two patrol boats, one, three campgrounds (totaling 128 family campsites), one group campground with six sites, 12 RV sites with hookups, and one rustic cabin. This unit is partially ADA accessible.

Folsom Lake SRA

This unit provides 15 launch ramps (totaling 67 lanes) for motorized boats, two launch ramps for non-motorized boats, one beach launch and landing area for non-motorized boats, 28 boarding floats, two docks, five gangways, one pier, one water ski area, and concessionaire-provided boat rentals/boat slips (674 wet and 175 dry). Support equipment and facilities include 152 BBQs, 300 buoys, concessionaire-provided marina/rentals/supplies, one dump station/pump-out facility, 21 interpretive display/panels, two acres of landscaping, lighting, 1616 paved vehicle and 1441 paved vehicle/trailer parking spaces, 90 unpaved vehicle/trailer parking spaces, nine picnic areas, 325 picnic tables, refuse collection and containers, 16 restroom buildings (totaling 60 flushable toilets), 10 chemical toilets, three floating restrooms, eight vault toilets, 124 signs, three special event areas, one spectator area, four swim areas, two maintenance barges, four patrol boats, two personal watercraft with rescue sled, two campgrounds (totaling 138 family campsites), one group campground with three sites, and 20 RV sites with hookups. This unit is partially ADA accessible. In addition, there are aquatic safety education/interpretation programs, boat patrol, law enforcement conducted by bicycle, boat, foot and vehicle, search-and-rescue activities, and aquatic hazard mitigation.

Franks Tract SRA

This unit, which is only accessible by water, provides water skiing. Support equipment and facilities include one special event area and two patrol boats. In addition, law enforcement is conducted by boat patrol.

Marshall Gold Discovery SHP

This unit provides a primitive boat launch area. Support equipment and facilities include one interpretive display/panel, 55 paved vehicle parking spaces, 20 picnic tables, refuse containers, two restroom buildings (totaling 14 flushable toilets), six signs, four special event areas, and one swim area. In addition, there is law enforcement conducted on foot and by vehicle, along with search-and-rescue activities.

Monterey District

Asilomar SB

This unit provides a beach boat launch and one landing area. Support equipment and facilities include 20 paved and 40 unpaved vehicle parking spaces, refuse containers, one swim area, and two personal watercraft with rescue sleds. In addition, there is boat patrol, law enforcement conducted on foot and by vehicle, search-and-rescue activities, and aquatic hazard mitigation.

Carmel River SB

This unit provides one primitive/beach boat launch and landing area. Support equipment and facilities include four interpretive display/panels, 75 unpaved vehicle parking spaces, two restroom buildings (totaling four flushable toilets), 16 signs, one swim area, and two personal watercraft with rescue sleds. In addition, there is boat patrol, law enforcement conducted on foot and by vehicle, search-and-rescue activities, and aquatic hazard mitigation.

Garrapata SP

This unit provides a beach boat launch and landing area. Support equipment and facilities include 150 unpaved vehicle parking spaces, refuse containers, 25 signs, one swim area, two chemical toilets, and two personal watercraft with rescue sleds. In addition, there is boat patrol, law enforcement conducted on foot and by vehicle, search-and-rescue activities, and aquatic hazard mitigation.

Limekiln SP

This unit provides a beach launch area for kayaks. Support equipment and facilities include two interpretive display/panels, two paved vehicle parking spaces, two picnic tables, one shower stall, one vault toilet, and one campground with 24 family campsites. In addition, law enforcement is conducted by foot, and there is aquatic hazard mitigation.

Marina SB

This unit provides a beach boat launch and one landing area. Support equipment and facilities include six interpretive display/panels, 35 paved vehicle parking spaces, one picnic area, two picnic tables, refuse containers, one restroom building with three flushable toilets, four shower stalls, four signs, one swim area, and two personal watercraft with rescue sleds. In addition, there is boat patrol, law enforcement conducted on foot and by vehicle, search-and-rescue activities, and aquatic hazard mitigation.

Monterey SB

This unit provides a beach boat launch and one landing area. Support equipment and facilities include 80 paved vehicle parking spaces, one picnic area, three picnic tables, refuse containers, four chemical toilets, one swim area, and two personal watercraft with rescue sleds. In addition, there are aquatic safety education/interpretation programs, boat patrol, law enforcement conducted on foot and by vehicle, search-and-rescue activities, and aquatic hazard mitigation.

Moss Landing SB

This unit provides a beach boat launch and one landing area. Support equipment and facilities include 150 paved vehicle parking spaces, six signs, three chemical toilets, one swim area, and two personal watercraft with rescue sleds. In addition, there is boat patrol, law enforcement conducted on foot and by vehicle, search-and-rescue activities, and aquatic hazard mitigation.

Point Lobos SNR

This unit provides a one-lane launch ramp for motorized boats, as well as an underwater park. Support equipment and facilities include a scuba dive concession, 60 paved vehicle parking spaces, one picnic area, six picnic tables, refuse containers, one restroom building with six flushable toilets, one swim area, 15 signs, two inflatable rescue boats, two personal watercraft with rescue sleds, and one visitor center. This unit is partially ADA accessible. In addition, there are aquatic safety education/interpretation programs, boat patrol, law enforcement conducted on foot and by vehicle, search-and-rescue activities, and aquatic hazard mitigation.

Salinas River SB

This unit provides a beach boat launch and one landing area. Support equipment and facilities include 80 paved and 70 unpaved vehicle parking spaces, refuse containers, 12 signs, three chemical toilets, one swim area, and two personal watercraft with rescue sleds. In addition, there is boat patrol, law enforcement conducted on foot and by vehicle, search-and-rescue activities, and aquatic hazard mitigation.

Zmudowski SB

This unit provides a beach boat launch and one landing area. Support equipment and facilities include 60 unpaved vehicle parking spaces, refuse containers, six signs, one chemical toilet, one swim area, and two personal watercraft with rescue sleds. In addition, there is boat patrol, law enforcement conducted on foot and by vehicle, search-and-rescue activities, and aquatic hazard mitigation.

North Coast Redwoods District

Benbow Lake SRA

This unit provides a primitive boat launch area. Support equipment and facilities include 20 BBQs, 10 interpretive display/panels, two acres of landscaping, 150 paved and 25 unpaved vehicle parking spaces, 35 picnic areas, 35 picnic tables, refuse containers, five restroom buildings (totaling 11 flushable toilets) two pit toilets, two vault toilets, signage, and two maintenance boats. This unit is partially ADA accessible. In addition, there are aquatic safety education/interpretation

programs, law enforcement conducted on foot and by vehicle, search-and-rescue activities, and aquatic hazard mitigation.

Humboldt Lagoons SP

This unit provides a one-lane launch ramp for motorized boats and one primitive boat launch area. Support equipment and facilities include concessionaire-provided kayak rental/instruction/supplies, two interpretive display/panels, 20 paved vehicle/trailer and 10 unpaved vehicle parking spaces, one picnic area, two picnic tables, refuse collection and containers, one two stall restroom, one pit toilet, two signs, one visitor center, and one boat-in campground (totaling five campsites). In addition, there are aquatic safety education/interpretation programs, and law enforcement is conducted on foot and by vehicle.

Humboldt Redwoods SP

This unit provides a primitive boat launch area. Support equipment and facilities include eight BBQs, four fire rings, 25 paved vehicle parking spaces, one picnic area, five picnic tables, refuse containers, one restroom building with six flushable toilets, and two group campsites. In addition, there are aquatic safety education/interpretation programs, law enforcement conducted by foot, and search-and-rescue activities.

Jedediah Smith Redwoods SP

This unit provides a one-lane launch ramp for non-motorized boats and one primitive/beach boat launch area. Support equipment and facilities include one dump station/pump-out facility, 10 unpaved vehicle/trailer parking spaces, one picnic area, 10 picnic tables, refuse containers, two vault toilets, one visitor center, one campground with 86 family campsites, and one group campsite. This unit is partially ADA accessible. In addition, law enforcement is conducted by boat and vehicle.

Richardson Grove SP

This unit provides a primitive boat launch area. Support equipment and facilities include five BBQs, 14 interpretive display/panels, 30 paved and 40 unpaved vehicle parking spaces, 10 picnic areas, 10 picnic tables, refuse containers, 12 restroom buildings (totaling 54 flushable toilets), 18 shower stalls, signage, one visitor center, 168 family campsites, and one group campsite. This unit is partially ADA accessible. In addition, there is law enforcement conducted on foot and by vehicle, search-and-rescue activities, and aquatic hazard mitigation.

Standish-Hickey SRA

This unit provides a primitive boat launch area. Support equipment and facilities include five BBQs, 10 interpretive display/panels, five paved and 20 unpaved vehicle parking spaces, five picnic areas, five picnic tables, refuse containers, seven restroom buildings (totaling 20 flushable toilets), 14 shower stalls, signage, and 160 family campsites. This unit is partially ADA accessible. In addition, there is law enforcement conducted on foot and by vehicle, search-and-rescue activities, and aquatic hazard mitigation.

Tolowa Dunes SP

This unit provides a one-lane launch ramp for motorized boats and one boarding float. Support equipment and facilities include five paved vehicle/trailer parking spaces, one vault toilet, and two signs. This unit is partially ADA accessible. In addition, law enforcement is conducted by vehicle.

Northern Buttes District

Ahjumawi Lava Springs SP

This unit provides one launch ramp for motorized boats, one launch ramp for non-motorized boats, a primitive boat launch area, and one gangway. Support equipment and facilities include nine fire rings, one buoy, two interpretive display/panels, two picnic areas (including one boat-in), three picnic tables, refuse collection and containers, three vault toilets, signage, one patrol boat, and three boat-in campgrounds (totaling nine campsites). This unit is partially ADA accessible. In addition, law enforcement is conducted by vehicle.

Bidwell-Sacramento River SP

This unit provides two one-lane launch ramps for motorized boats, one lane launch ramp for non-motorized boats, one primitive/beach boat launch area, and water trails.
